AUDIENCE TAKEAWAYS

- A stronger belief that the past does not have to define the future.
- Practical language for resilience, confidence, accountability, and growth.
- A memorable framework for resilience, responsibility, trust, and future-building.
- Encouragement to keep making small choices that build a better path.

WHY MISTI

Misti brings lived experience, youth-centered work, creativity, and plainspoken humor into rooms that need honesty without hopelessness.

Her background includes community-based youth programming and direct work with young people in the juvenile justice system. Paired with a survivor-informed perspective, warmth, and practical storytelling, that experience helps audiences feel connected instead of lectured.

Core belief: Young people need to feel seen before they can fully believe in who they are becoming.
